CALCULATING PAYMENT OF THE BCITF LEVY

The levy is calculated at 0.2% of the estimated value of the construction project, where the total value is more than \$100,000 incl. GST (\$20,000 before 1 July 2026). Any variation in the amount of the BCITF Levy to be paid is confirmed when the final construction value differs by more than \$25,000 incl. GST from the original estimate.

WHAT IS THE PURPOSE OF THE LEVY?

Revenue generated under the *BCITF Act* is directed by the Construction Training Fund (CTF) into programs that ensure the building and construction industry has an adequate number of skilled workers available to support the needs of the industry in WA. Revenue provides eligible employers with grants to offset the costs of employing new apprentices and trainees in construction trades and eligible workers with assistance to reduce the costs of training for skills required to perform their on-site work safely and effectively.
